

Welcome!

VerDuS SURF Pop Up Meeting 2020

Results second call 2017
Kick off 2019

Utrecht, 3 February 2020

Programme

Welcome

Presentation of results by four Pop Up-projects

Very short introduction to the last seven projects and Q&A

Break

Pitches Pop Up projects 2019 first call and Q & A

Being part of VerDuS

Drinks

A tool for co-designing healthy environments for older citizens in Emerging Smart Neighborhoods

Prof. Masi Mohammadi (TUE) | Woningcorporatie Wooninc. | Zorgorganisatie Oktober | Bewonersgroepen en gemeente Waalre

A methodology for design and development of neighborhoods.

- mapping the social and spatial characteristics of a specific neighborhood in Waalre;
- mapping the current policy and the relevant organizational structure;
- research into the needs and preferences of current residents in the neighborhood;
- translate all input in collaboration with older residents into smart spatial solutions.

Degrowth Daily: Newspaper for the Degrowing City

Prof. Joop de Kraker & dr. Christian Scholl (UM) | NEIMED | Parkstad Limburg | IBA Parkstad
| Cultura Nova

- Stimulate the debate in the Netherlands on 'degrowth' and to feed it with new insights into the usability of the concept in urban development, in particular in a situation of shrinkage.
- Collect thoughts, experiences, opinions and analyzes from residents, civil servants, scientists, community workers and urban planners in the form of a newspaper, the "Degrowth Daily". The researchers are editing this newspaper and are writing a summary conclusion.

EVA: Electrical Vehicle Charging Infrastructure for the Amsterdam Metropolitan Area

Prof. Arjan van Timmeren & dr. Bardia Mashhoodi (TUD) | Amsterdam Institute for Advanced Metropolitan Solutions (AMS) | gemeente Amsterdam

EVA tries to distribute charging points for Electric vehicles (EVs) as efficiently as possible – together with stakeholders – in:

- the Amsterdam Metropolitan Region, for the total number of EVs between the various 4-digit zip code locations;
- a district in Amsterdam West, based on the distance between parking places on the street and electricity transformer substations and houses.

MaaS-TRAINER: Mobility-as-a-Service from a societal perspective. Trade-offs with Alternative Investment Projects

Dr. Francisco Bahamonde Birke (UU), dr. Niek Mouter (TUD), prof. Dick Ettema (UU) | gemeente Rotterdam

Participatory Value Evaluation (PVE) will be used to assess societal preferences. The project includes:

- a qualitative assessment on the way individuals evaluate different social projects and their features;
- a quantitative assessment based on choice models that allow eliciting trade-offs between different attributes and projects.

MOBIMON: MOBiliteit en InclusieMONitor

Prof. Dick Ettema (UU) & dr. Paulien van den Berg (TUE) | G4 (Amsterdam, Rotterdam, Den Haag en Utrecht) en Eindhoven | CBS | PBL | De Verkeersonderneming

In co-creation with societal partners, the researchers are developing a survey tool to map the degree of transport poverty and the explanatory factors in various cities in the Netherlands.

The results provide insight into the backgrounds of transport poverty and the groups for which this plays a role.

Based on this, advice is given about the need for policy, and which forms of policy are most effective.

Water as Leverage © Cynthia van Elk

Ruimtelijk ontwerpers als grenswerkers in transformaties naar een duurzame leefomgeving

Dr. Margo van den Brink, dr. Terry van Dijk, dr. Annet Kempenaar (RUG) & Henk Ovink, Special Envoy for International Water Affairs

A comparative international study of 4 cases (2 river widening | 2 urban climate adaptation) in Belgium, the Netherlands, Indonesia and New York, providing:

- a broad insight into the roles and critical institutional and organizational conditions for boundary works by spatial designers;
- input for a focus group discussion with Dutch spatial planning professionals;
- practical recommendations.

Ruimte voor beleving: onderzoek naar de beleving van stedelijke parken op basis van gebruikersvoorkeuren

Dr. Pauline van den Berg, dr. Minou Weijs-Perrée, dr. Gamze Dane, ir. Aloys Borgers (TUE) | gemeente 's-Hertogenbosch | Adviesbureau Planterra

The researchers:

- gain insight into the types and important characteristics of city parks through an extensive literature study;
- collect data via questionnaires about characteristics of city parks that users prefer and how they experience the city parks;
- conduct expert interviews with employees of the municipality of 's-Hertogenbosch and Planterra;
- present different spatial alternatives to respondents via virtual reality (VR) experiments.

Being part of VerDuS (1)

- knowledge initiative by NWO, Platform31, Regieorgaan SIA en three ministries (IenW, BZK, EZK)
- started in 2012 with several programmes
- Smart Urban Regions of the Future (2016-2020)

Calls	Projecten
<u>VerDuS SURF 'groot'</u>	5 nationale, langlopende <u>SURF-projecten</u>
<u>VerDuS SURF 'middelgroot'</u> ¹ (<u>JPI Urban Europe</u>) <ul style="list-style-type: none"> • <u>ENSCC</u> • <u>ENSUF</u> • <u>SUGI</u> 	<ul style="list-style-type: none"> • 13 projecten • 7 projecten • 7 projecten
<u>SURF Pop Up</u> <ul style="list-style-type: none"> • 2016 • 2017 – eerste call • 2017 – tweede call • 2018 • 2019 – eerste call • 2019 – tweede call 	<ul style="list-style-type: none"> • 3 projecten • 4 projecten • 4 projecten • 7 projecten • 6 projecten • 7 projecten
TOTAAL	63 <u>VerDuS SURF-projecten</u> in 2016-2020

Being part of VerDuS (2)

www.verdus.nl

Information on:

- VerDuS
- the programmes
- the projects

News | Events | Kennisbank

Being part of VerDuS (3)

- It is a community
- It is about co-creation & dialogue
- Importance of knowledge dissemination

So, please:

- be available for dialogue with urban regions and with (national) policies and governance
- make your results accessible to a broad professional audience through practical publications (and / or a video!) >> Policy Brief, to be used in a 'Synthesestudie'
- if possible: have a (simple) project website (>> URL?)
- make it clear that the research was made possible by VerDuS SURF

Being part of VerDuS (4)

Keep VerDuS (Ymkje) informed about:

- public activities aimed at a professional audience
- professional publications (in professional journals, etc.)
- other topics about which VerDuS could publish news items

Projects are offered the following:

- advice and support, *video offer*
- platforms: www.verdus.nl, meetings, contacts with the professional media, the individual channels of the affiliated organizations (NWO, Platform31 etc.) and so on
- accessible overviews of the SURF projects on the website
- interviews and articles on the website
- your results in the Kennisbank
- your results on the final VerDuS SURF event, **25 March 2021**
